**NEW TRAFFIC LAYOUT**

In order to improve the safety of all those using the grounds of Community Centre a new traffic layout is being introduced. Following a review of traffic and pedestrian movements around the Centre, and bearing in mind the requirements of the various groups who use the indoor and outdoor facilities, it has been decided that a one-way traffic system should be introduced. New road marking, signposts and parking areas will be installed, and we ask everybody who uses the centre to become familiar with these new arrangements. These changes are designed to improve safety and minimise the risk of accident or injury to students, sportspeople, staff and all other users of the Centre. We ask for your support and co-operation in making the Centre a safer place.
